

# TROY M506 MICR Printers

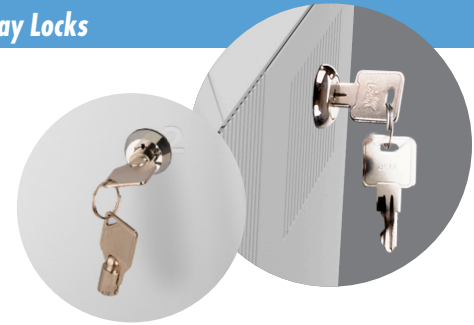

HP AUTHORIZED - TROY ENHANCED

## 3-Position Printer Key Locks and Paper Tray Locks

Most businesses locate their workgroup printer in an open office environment. This creates a security risk. TROY offers MICR locks and paper tray locks to reduce the risk of check stock theft and printer misuse.

Standard on TROY M506 MICR Secure Ex. Tray locks optional on other M506 MICR printers.

## Exclusive TROYmark™ Intelligent Anti-tampering Technology

TROYmark™ is a watermark of user-defined variable data, printed diagonally across each check. It provides state-of-the-art deterrence of fraudulent check alteration.

Standard on TROY M506 MICR Secure Ex.

## Major Selling Points

### Three Model Choices

- Providing security to fit your need.

### Reliable Printing

- HP award-winning reliability combined with printer optimized security from TROY.

### Improved Small Business Solution

- Fast printing and built-in duplexing allow for multifunctional use in the small to medium office environment.

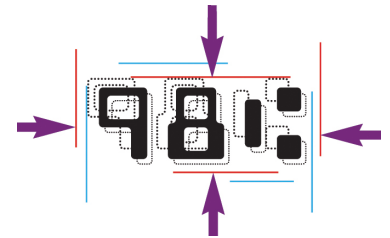

### Versatile supply options

- All TROY printers are fully compatible with TROY MICR cartridges and standard HP cartridges.

## ExPT™ Exact Positioning Technology

A MICR line out of alignment is one cause of rejected checks, a multi-million dollar problem for banks and companies. ExPT™ allows users to precisely adjust the MICR line without affecting the data file.

Available on all TROY M506 MICR printers.

## Built-in Secure Encryption and Decryption

Data security is critical in a distributed printing application. TROY's encryption/decryption technology "unlocks" and prints the data only when it is received at the TROY printer.

Available on TROY M506 MICR Secure and MICR Secure Ex printers.

## Complete the Solution

- **TROY Check Print** - Compatible with most financial software systems, this software merges accounting information with pre-configured electronic check templates and prints checks exactly how you want onto blank security check paper.
- **TROY MICR Toner Secure** - A patented formula that helps deter fraudulent alteration by releasing a red dye when chemical removal of toner is attempted with a solvent.
- **TROY MICR UV Toner** - In new OEM cartridges this high-quality MICR will not void manufacturer's warranty.
- **TROY Check Paper** - With a full selection of stock to choose from, TROY can be your one stop solution for all of your check printing needs.
